

February 2009

TO WHOM IT MAY CONCERN

I am pleased to advise that Company Payne Security of Queens Lane, Mold, Flintshire, CH7 1JR. UK, is a manufacturer of high quality plastic card products. We produce card products using a range of different substrates and read technologies including contactless card products.

Our card body production, in terms of collation, lamination and punching, has always been based on utilising a selection of Oasys Technologies Ltd machines. We selected these machines based on their close fit to the HP Digital Printing Press sheet size.

I can confirm that Payne Security are very satisfied with the performance of this machinery and the after-sales and support that we receive from the team at Oasys.

If you have any queries or concerns on this matter, please do not hesitate to contact the undersigned.

A handwritten signature in blue ink that reads "David Hayward".
