

TO WHOM IT MAY CONCERN

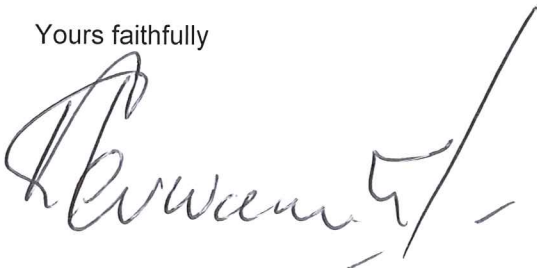

Dear Sirs

Thames Card Technology Ltd is a pioneering supplier of high quality secure card products. Our production portfolio contains many examples of secure card products that demand the very highest levels of quality and performance to be consistently delivered on time.

Complementing our conventional bank card products is a comprehensive range of contactless and dual interface products. We are aided in the production of these products by the utilisation of a range of fully automated high speed Oasys Technologies production machines. This includes the Oasys OCL 600-3 Auto Collation unit which has proven to be a particularly trustworthy and consistent performing machine.

Should you have any queries in relation to this topic then please do not hesitate to contact me.

Yours faithfully

Paul Underwood
Managing Director
